

The Wild, Wild West!!!

Saddle up partners, and get ready for a rip-roarin' good time! This year's Dalcroze Eurhythmics summer camp will take us through *The Wild, Wild West!!!* Using the powerful relationship between music and movement we will forge through fantastic repertoire in a totally integrated experience of music, movement, dance, art, and theater generated by the imaginations of kids. From Aaron Copland's *Billy the Kid* and *Appalachian Spring* to great folk songs from our American heritage, this week of music learning will offer something for everyone!

The five-day camp will conclude with a performance complete with sets and costumes created by the students themselves. In preparation for the performance, each student will be provided a CD at the beginning of camp with the material we'll be using throughout the week. Each day, students should bring a snack to munch on while they build their own sets and costumes. Enrollment is limited, so register early!

Dates: July 15-19, 2013
